Career Objective

Computer Science student with hands on experience in frontend development, API integration, and production level software delivery. Seeking roles in networking, cybersecurity, or cloud infrastructure where I can apply my analytical skills, continue building technical depth, and contribute to secure, resilient systems.

Education

Multimedia University of Kenya

Nairobi, Kenya

Bachelor of Science in Computer Science

Expected Graduation: 2028

- Relevant Coursework: Data Structures & Algorithms, Computer Networks, Operating Systems, Database Management Systems, Object-Oriented Programming

Power Learn Project

Nairobi, Kenya

Full Stack Development Program

Completed: November 2025

- Technologies: MERN Stack, Python, JavaScript, MySQL, Git & GitHub
- Project-based curriculum with industry mentorship

Alison.com

Online

Python for Data Science

Currently Enrolled

- Online certification course (in progress)

Self-Paced Learning

Online

Networking & Cybersecurity Fundamentals

Currently enrolled

- Cisco CCNA (Jeremy's IT Lab) & TryHackMe
- Studying network fundamentals including routing, switching, IP addressing, and network security basics through CCNA coursework
- Building hands-on cybersecurity skills through TryHackMe labs covering threat detection, incident response, and security fundamentals

Maryhill Girls' High School

Thika, Kenya

Kenya Certificate of Secondary Education

Completed: April 2022

- Mean Grade: A- (Minus)
- Excelled in Mathematics and Sciences

Technical Skills

Languages: Python, JavaScript, TypeScript, SQL

Web Technologies: React, Vite, Bootstrap, Node.js, Express

Databases: MongoDB, MySQL

Tools: Version Control (Git, GitHub), Postman, WSL2 (Linux)

Work Experience

Frontend Developer (Attachment)

July 2026 – August 2026

Crowbyte Technology Limited

Nairobi, Kenya

- Designed and implemented a module of the application at hand, an agricultural technology solution connecting farmers with service providers and buyers
- Tested and integrated REST API endpoints using Axios
- Created a service layer enabling seamless switching between mock and real data

Rapporteur

10th – 13th June 2025

Grassroots Nest for Innovations and Change (GRiC)

Nairobi, Kenya

- Staff and Partners' Training Workshop on Organizational Gender Transformative Approach and Unpacking Barriers to Girls' Education in Marginalized Communities in Kenya
- Took detailed notes and summarized key discussions from training sessions
- Delivered clear and well-structured reports highlighting key insights
- Practiced professional communication and time management
- Facilitated recap sessions to reinforce previous day's lessons and promote engagement

Projects

CommunityWatch – Full-Stack Community Platform | *MERN Stack*

- A zone-based issue tracking system addressing SDG #11 (Sustainable Cities) through technology
- Features interactive maps, anonymous reporting, and admin dashboard for real-time community issue resolution

AgroAid – AI Powered Land Guardian | *Node.js, Express, React, Python*

- Developed an AI-driven platform that uses satellite data and predictive analysis to detect land degradation risks
- Built a real-time monitoring dashboard with colour-coded risk maps using Leaflet.js and React
- Implemented RESTful APIs with Node.js/Express and a Python AI engine for risk assessment
- Developed as part of a Land ReGen Hackathon

Awinja Education Centre – School Management System | *React, Node.js, MongoDB*

- Full-stack School Management System built with React, Node.js, and MongoDB
- Features student management, fee tracking, teacher management, and financial reporting
- Deployed on Vercel and Render; future upgrades and enhancements in place

Personal Portfolio Website | *HTML, CSS, JavaScript*

- Designed and built a responsive personal portfolio using HTML, CSS, and JavaScript
- Includes projects, contact form, and downloadable CV

Certifications

Bachelor of Science in Computer Science: Multimedia University of Kenya (In Progress)

Power Learn Project – Full Stack Development (MERN)

TryHackMe – Pre Security Path (In Progress)
